CONTENTS OF VOLUME 75

No. 1, January, 1974

PAGE

Membrane-associated Adenosine 3′, 5′-Monophosphate-dependent Protein Kinase and Its Substrates in Human Erythrocytes. *R. Shimomura, S. Matsumura, and Y. Nishizuka* 1

Purification and Properties of S-100 Protein from Porcine Brain. *T. Abe, K. Takahashi, and T. Ando* 11

Identification of Rapidly Trinitrophenylating Amino Groups of Human Bence-Jones Proteins. *T. Shinoda and Y. Tsuzukida* 23

Studies on Low Temperature Spectra of Respiratory Pigments. II. Spectra of Cytochromes in Respiratory Systems between Liquid Helium and Room Temperatures. *B. Hagihara, R. Oshino, and T. Iizuka* 45

Hormonal Regulation of Tyrosine Transaminase Synthesis in Isolated, Rat Liver Perfused with Synthetic Medium. *H. Ohtsuka* 53

Sensitivity of *Escherichia coli* to Viral Nucleic Acid. VII. Further Studies on Ca^{2+}-induced Competence. *A. Taketo and S. Kuno* 59

Formation and Metabolism of Acetoacetate in Yeast. *I. Shimizu, J. Nagai, and H. Katsuki* 69

Biosynthesis of Seminolipid: Sulfation *in Vivo* and *in Vitro*. *S. Handa, K. Yamato, I. Ishizuka, A. Suzuki, and T. Yamakawa* 77

Enzymatic Hydrolysis of Glucans Containing β-1,3- and β-1,6-linkages. III. *Gibberella* β-1,6-Glucan 6-Glucanohydrolase Operative in the Selective Hydrolysis of β-1,3-Glucosidic Linkages in *Eisenia* Laminaran. *Y. Shibata* 85

Studies on the Regulation of Glutathione Level in Rat Liver. *N. Tateishi, T. Higashi, S. Shinya, A. Naruse, and Y. Sakamoto* 93

A Bacterial Dextranase Releasing Only Isomaltose from Dextrans. *T. Sawai, K. Toriyama, and K. Yano* 105

Collagen Fibrillogenesis *in Vitro*: An Accelerative Effect of Surfactants on Collagen Fibril Formation. *M. Honya and H. Mizunuma* 113

Studies on the Binding of Thiamine Pyrophosphate to Apoenzyme of Yeast Pyruvate Decarboxylase. *H. Sanemori, S. Yoshida, and T. Kawasaki* 123

Mechanism of Adrenaline-induced Lipolysis in Adipose Tissue. *H. Okuda, Y. Saito, N. Matsuoka, and S. Fujii* 131

L-Histidine Ammonia-lyase in Rat Liver. I. Purification and General Characteristics. *H. Okamura, T. Nishida, and H. Nakagawa* 139

Comparison of the Primary Structure of Whale Pancreatic Ribonuclease with Ribonuclease A. *T. Yamada, Y. Nakazawa, and late T. Ukita* 153

Agglutination of Bacterial Spheroplast. III. Relationship of Labelled Concanavalin A Binding to the Agglutinability. *H.B. Maruyama* 165

Interaction of Human Serum Proteinase Inhibitors with Proteolytic Enzymes of Animal, Plant, and Bacterial Origin. *M. Sasaki, H. Yamamoto, H. Yamamoto, and S. Iida* 171

Physicochemical Properties of Deoxyribonucleic Acid from an Extreme Thermophile. *T. Oshima and K. Imahori* 179

PAGE

SHORT COMMUNICATIONS

Characterization of Aminopeptidase and One Dipeptidase of Cytoplasmic Soluble Fraction from *Mycobacterium phlei*. *M.T. Plancot and K.-K. Han* 185

Changes in Adenosine 3′,5′-Monophosphate Level and Protein Kinase Activity by Glucagon in Rat Liver Nuclei. *H. Higashino and M. Takeda* 189

Inhibition of the Biosynthesis of Leucomycin, a Macrolide Antibiotic, by Cerulenin. *S. Ōmura and H. Takeshima* 193

Further Investigations on the Chemical Structure of Forssman Globoside Obtained from Caprine Erythrocyte Stroma. *T. Taketomi, A. Hara, N. Kawamura, and M. Hayashi* 197

Effects of Temperature, Salts, and Solvents on the Enzymatic Activity of Ribonuclease T_1. *K. Takahashi* 201

Isolation and Characterization of *Vicia faba* Root Tip Deoxyribonucleic Acid. *J.B. Engle and O.G. Ward* 205

PRELIMINARY NOTE

A Spin-label Study on Calcium-induced Conformational Changes of Troponin Components. *S. Ebashi, S. Ohnishi, S. Abe, and K. Maruyama* 211

No. 2, February, 1974

Mechanism of Inhibition of Bacterial Growth by Adenine. *R. Hosono and S. Kuno* 215

Iron Binding Proteins Found in Duodenal Mucosa of Rats during Iron Transport. *Y. Yoshino and Y. Hiramatsu* 221

Transport of Sugars and Amino Acids in Bacteria. VIII. Properties and Regulation of the Active Transport Reaction of Proline in *Escherichia coli*. *A. Morikawa, H. Suzuki, and Y. Anraku* 229

Transport of Sugars and Amino Acids in Bacteria. IX. Studies on the Active Transport Reaction in Sodium Azide- and 2,4-Dinitrophenol-sensitive Mutants of *Escherichia coli*. *F. Goto and Y. Anraku* 243

Activation of Serum Enzymes by the Antigen-Antibody Reaction and Its Relation to C1 Inhibitor. *H. Sumi and S. Fujii* 253

Inactivation of *Rhizopus chinensis* Acid Protease by Some Diazo Compounds. *D. Tsuru, K. Fujiwara, R. Watanabe, T. Yoshimoto, S. Hayashida, M. Tomimatsu, and Y. Ōkoshi* 261

Separation of Transfer RNA's from *Bacillus subtilis*, *Bacillus stearothermophilus*, and Chicken Liver by Polyacrylamide Gel Electrophoresis. *F. Varricchio and T. Seno* 269

Physicochemical Studies on the Light Chains of Myosin. II. Effect of Metal Ions on the Electrophoretic Behavior of Myosin Subunits. *S.L. Gaffin and A. Oplatka* 277

Reaction Mechanism of the Ca^{2+}-dependent ATPase of Sarcoplasmic Reticulum from Skeletal Muscle. X. Direct Evidence for Ca^{2+} Translocation Coupled with Formation of a Phosphorylated Intermediate. *M. Sumida and Y. Tonomura* 283

The Stability of Taka-amylase A Immobilized on Various Sizes of Matrix. *T. Horigome, H. Kasai, and T. Okuyama* 299

Free-boundary Electrophoresis of Sodium Dodecyl Sulfate-Protein Polypeptide Complexes with Special Reference to SDS-Polyacrylamide Gel Electrophoresis. *K. Shirahama, K. Tsujii, and T. Takagi* 309

Studies on 3,4-Dihydroxyphenylacetate-2,3-dioxygenase. II. Role of Sulfhydryl Groups and Subunit Structure. *M. Ono-Kamimoto and S. Senoh* 321

PAGE

Studies on D-Tetrose Metabolism. IV. Purification and Some Properties of D-Erythrulose Reductase from Beef Liver. *K. Uehara, T. Tanimoto, and H. Sato* 333

Human Kidney α-Galactosidase. Multiplicity and Enzyme Activities for Ceramide Trihexoside and Some Aryl α-Galactosides. *I. Kano and T. Yamakawa* 347

Regulation of Rabbit Liver Fructose-1, 6-diphosphatase. II. Modification by Lysosomal Cathepsin B_1 from the Same Cell. *K. Nakashima and K. Ogino* 355

M-Protein. *T. Masaki and O. Takaiti* 367

Effect of Phenol Derivatives and Chemical Modification on the Adenosine Triphosphatase Activities of Heavy Meromyosin and Subfragment 1. *T. Kameyama, S. Hayakawa, and T. Sekine* 381

Studies on the Active Site of *Brevibacterium* Pyrocatechase. *K. Nagami and S. Senoh* 389

Studies on the Molecular Complex of Flavins. V. Possible Role of Free Sulfhydryl Group in Apoprotein of Glucose Oxidase and 6-Amino Group in Adenine Moiety of FAD. *H. Tsuge and H. Mitsuda* 399

Partial Purification and Some Properties of Cyclamate Sulfamatase. *T. Niimura, T. Tokieda, and T. Yamaha* 407

Carboxamidomethylation of Ribonuclease from *Rhizopus* sp. *T. Komiyama and M. Irie* 419

SHORT COMMUNICATIONS

Evidence for the Role of Disulfide Bonds in the Masking of Chromophore Groups in Bovine κ-Casein. *K. Shimazaki and S. Arima* 429

Application of the Optical Rotation Stopped-flow Method to Kinetic Studies of Rapid Conformational Changes of Proteins. pH-jump of Taka-amylase A. *K. Hiromi, M. Ohnishi, and Y. Hama* 433

The Presence of a β-Mannosidic Linkage in a Glycopeptide from Microsomal Membranes of Rat Liver. *T. Kawasaki, K. Sugahara, T. Okumura, and I. Yamashina* 437

No. 3, March, 1974

Circular Dichroism of the Disulfide Groups of Ribonuclease in 6 M Guanidine Hydrochloride. *T. Takagi and T. Izutsu* 441

The Amino Acid Sequence of SH-peptides Involved in the Active Site of Myosin A Adenosinetriphosphatase. *T. Yamashita, Y. Soma, S. Kobayashi, and T. Sekine* 447

Inactivation of Bovine Carboxypeptidase A by Specific Modification of Arginine Residues with Phenylglyoxal. *H. Ikenaga and K. Takahashi* 455

Viscometric Demonstration of Tubulin Polymerization. *R. Kuriyama and H. Sakai* 463

Purification and Some Properties of γ-Glutamyl Transpeptidase from Azo Dye-induced Hepatoma. *N. Taniguchi* 473

Biochemical Studies on Gramicidin S Non-producing Mutants of *Bacillus brevis* ATCC 9999. *M. Kambe, Y. Imae, and K. Kurahashi* 481

Multiple Components of β-N-Acetylhexosaminidase from Equine Kidney. Their Action on Glycolipids and Allied Oligosaccharides. *Y. Seyama and T. Yamakawa* 495

The Broad Aglycone Specificity of α-L-Fucosidases from Marine Gastropods. *M. Nishigaki, T. Muramatsu, A. Kobata, and K. Maeyama* 509

Biochemical Studies on Sulfate-reducing Bacteria. XIII. Sulfite Reductase from *Desulfovibrio vulgaris*—Mechanism of Trithionate, Thiosulfate, and Sulfide Formation and Enzymatic Properties. *K. Kobayashi, Y. Seki, and M. Ishimoto* 519

PAGE

Biogenesis of Multiple Cellulase Components of *Pseudomonas fluorescens* var. *cellulosa*. I. Effects of Culture Conditions on the Multiplicity of Cellulase. *T. Yoshikawa, H. Suzuki, and K. Nisizawa* 531

Purification of a New Plasma Inhibitor of Kallikrein. *H. Sumi and S. Fujii* 541

On the Conformation of NADP-dependent Isocitrate Dehydrogenase from *Bacillus stearothermophilus*. *Y. Hibino, Y. Nosoh, and T. Samejima* 553

Purification and Kinetic Studies of Wheat Bran β-Amylase. Evaluation of Subsite Affinities. *M. Kato, K. Hiromi, and Y. Morita* 563

Adaptive Control of the Ethanol-forming System in Heterolactic Acid Bacteria. Effect of Growth Conditions on Alcohol Dehydrogenase Synthesis in *Leuconostoc mesenteroides*. *S. Ito, H. Hashiba, and Y. Eguchi* 577

Studies on Luciferase from *Photobacterium phosphoreum*. V. An Enzyme-FMN Intermediate Complex in the Bioluminescent Reaction. *K. Yoshida, M. Takahashi, and T. Nakamura* 583

Mechanism of Mercuric Chloride Resistance in Microorganisms. III. Purification and Properties of a Mercuric Ion Reducing Enzyme from *Escherichia coli* Bearing R Factor. *K. Izaki, Y. Tashiro, and T. Funaba* 591

Characteristics of the Inhibition of Ornithine-δ-aminotransferase by Branched-chain Amino Acids. *T. Matsuzawa* 601

A Method for the Detection of Strand Breaks in DNA Samples. *K. Shimada, T. Nishimoto, and Y. Takagi* 611

Studies on Acyl Donors for Plasma Cholesterol Esterification. Triglyceride Fatty Acids in Rats *in Vivo*. *M. Sugano* 619

Studies on Violet-colored Acid Phosphatase of Sweet Potato. I. Purification and Some Physical Properties. *K. Uehara, S. Fujimoto, and T. Taniguchi* 627

Studies on Violet-colored Acid Phosphatase of Sweet Potato. II. Enzymatic Properties and Amino Acid Composition. *K. Uehara, S. Fujimoto, T. Taniguchi, and K. Nakai* 639

SHORT COMMUNICATIONS

Time-dependent Increase in Stability of Collagen Fibrils Formed *in Vitro*. Effect of Temperature. *T. Hayashi and Y. Nagai* 651

Reaction of Chloroplasts with Diazonium-1, 2, 4-triazole. *K. Nakaya, K. Ariga, F. Obata, and Y. Nakamura* 655

N-Acyl Specificity of Taka-N-acetyl-β-D-glucosaminidase Studied with Synthetic Substrate Analogs. III. Effects of α-Hydroxyl and α-Methoxyl Substituents of the Substrate-2-acetamide Group on Enzymatic Hydrolysis. *K. Yamamoto* 659

Biphasic Effect of Taurocholate on Lipase Activity in the Presence of Lecithin. *K. Tsuzurahara, T. Hiramatsu, and S. Takeyama* 663

States of Imino Groups in Collagen as Measured with a Modifying Reagent, *tert*-Butyl Hypochlorite. *S. Yamazaki, A. Matsushima, A. Tsuchii, and Y. Inada* 667

PRELIMINARY NOTES

Staining of Myofibrils by Fluorescent Antibody against the 10 S Component of the Original α-Actinin Preparation. *H. Sugita, T. Masaki, and S. Ebashi* 671

Isolation of an Inhibitor of β-Glucuronidase from Human Saliva. *W. Sakamoto, O. Nishikaze, and E. Sakakibara* 675

PAGE

No. 4, April, 1974

Effect of Isoproterenol on Polyamine Metabolism in Mouse Salivary Glands.
H. Inoue, H. Tanioka, K. Shiba, A. Asada, Y. Kato, and Y. Takeda 679

An Affinity Column Method for Partial Purification of Cytochrome P-450 from Phenobarbital-induced Rabbit Liver Microsomes. *Y. Imai and R. Sato* 689

Interaction of the α-Ketoglutarate Dehydrogenase Complex with Basic Polypeptides.
K. Imai and Y. Tomita 699

β-Galactosidases from Jack Bean Meal and Almond Emulsin. Application for the Enzymatic Distinction of Galβ1→4GlcNAc and Galβ1→3GlcNAc Linkages.
M. Arakawa, S. Ogata, T. Muramatsu, and A. Kobata 707

Comparison of Adaptations to Diet of Enzymes Involved in Uric Acid Production from IMP in Chickens and Rats. *R. Itoh and K. Tsushima* 715

Purification of Rabbit Liver Cathepsin B_1. *K. Ogino and K. Nakashima* 723

Preparation of Plasminogen Activator from Vascular Trees of Human Cadavers. Its Comparison with Urokinase. *N. Aoki* 731

Nuclear Phosphoprotein Kinases from Rat Liver. *M. Takeda, S. Matsumura, and Y. Nakaya* 743

Localization of Troponin in Thin Filament and Tropomyosin Paracrystal. *I. Ohtsuki* 753

The Effects of Chemical Modification by N-Bromosuccinimide of Saccharifying α-Amylase from *Bacillus subtilis* on Various Substrates. *H. Fujimori, M. Ohnishi, and K. Hiromi* 767

Sulfated Glycoproteins Capable of Coagulating Calcium Carbonate Isolated from Pathological Human Bile. *H. Nagashima, M. Masubuchi, and Z. Yosizawa* 779

Evidence Obtained by Cathepsin Digestion of Microsomes for the Assembly of Cytochrome b_5 and Its Reductase in the Membrane. *A. Ito* 787

Properties of Heart Sarcolemmal Na^+-K^+ ATPase.
D.B. McNamara, P.V. Sulakhe, J.N. Singh, and N.S. Dhalla 795

Studies on Soybean Trypsin Inhibitors. IX. Reconstitution of an Active Derivative from Two Inactive Fragments and the Contribution of Tryptophan-93.
T. Koide, T. Ikenaka, K. Ikeda, and K. Hamaguchi 805

The Trypsin-catalyzed Hydrolysis of Some L-α-Amino-lacking Substrates.
R. Kobayashi and S. Ishii 825

Chemical Structure of Glycolipid of Guinea Pig Red Blood Cell Membrane.
Y. Seyama and T. Yamakawa 837

Preparation of an Active Fragment of Potato Proteinase Inhibitor IIa and Its Properties.
T. Iwasaki, T. Kiyohara, and M. Yoshikawa 843

Studies on the Conversion of Mevalonate into Bile Acids and Bile Alcohols in Toad and the Stereospecific Hydroxylation at Carbon Atom 26 during Bile Alcohol Biogenesis.
T. Kuramoto, S. Itakura, and T. Hoshita 853

L-Ascorbic Acid Sulfate Esters with Special Reference to Enzymatic Hydrolysis.
H. Hatanaka, Y. Ogawa, and F. Egami 861

Induction of Tyrosine Aminotransaminase and Ornithine Decarboxylase in Isolated Perfused Regenerating Rat Liver. *N. Fukui, A. Fujita, H. Ohtsuka, and Y. Miura* 867

Reactivity of Peptide Imino Groups in Proteins with *tert*-Butyl Hypochlorite in Relation to Secondary Structure. *A. Matsushima, S. Yamazaki, and Y. Inada* 875

Stabilization of Pig Kidney Cathepsin A by Sucrose and Chloride Ion, and Inhibition of the Enzyme Activity by Diisopropyl Fluorophosphate and Sulfhydryl Reagents. *E. Doi* 881

Cathepsin A of Two Different Molecular Sizes in Pig Kidney.
E. Doi, Y. Kawamura, T. Matoba, and T. Hata 889

PAGE

Sensitivity of *Escherichia coli* to Viral Nucleic Acid. VIII. Idiosyncrasy of Ca^{2+}-dependent Competence for DNA. *A. Taketo* 895

Phosphodiesterase-phosphomonoesterases from *Fusarium moniliforme*. IV. Kinetic Studies. *H. Yoshida* 905

Molecular Properties of Phosphoenolpyruvate Carboxylase of *Escherichia coli* W. *T. Yoshinaga, H. Teraoka, K. Izui, and H. Katsuki* 913

SHORT COMMUNICATIONS

Effect of Quasi-substrate on the Monomer-dimer Equilibrium of D-Amino Acid Oxidase. *K. Horiike, K. Shiga, A. Isomoto, and T. Yamano* 925

N-Acyl Specificity of Taka-N-acetyl-β-D-glucosaminidase. IV. Essential Requirement of the 2-Acetamide-carbonyl Group for the Enzymatic Hydrolysis. *K. Yamamoto* 931

Circular Dichroism Studies on the Interaction of the *Lac* Repressor with Poly d(A-T) and Nucleic Acid Components. *K. Fukada, Y. Ohshima, and T. Horiuchi* 935

Properties of Human Erythrocyte Acetylcholinesterase. *K. Sihotang* 939

PRELIMINARY NOTES

Partial Purification of a Carbon Monoxide-binding Hemoprotein Reconstitutively Active in Fatty Acid ω-Hydroxylation from Porcine Kidney Cortex Microsomes. *K. Ichihara, E. Kusunose, and M. Kusunose* 943

Relationships among the Multiple Components of β-N-Acetylhexosaminidase from Equine Kidney. *Y. Seyama and T. Yamakawa* 947

No. 5, May, 1974

Properties of Bacterial Virus φA and Its DNA. *A. Taketo* 951

Pyridine-2, 6-dicarboxylic Acid (Dipicolinic Acid) Formation in *Bacillus subtilis*. I. Non-enzymatic Formation of Dipicolinic Acid from Pyruvate and Aspartic Semialdehyde. *K. Kimura* 961

Subsite Affinities of Bacterial Liquefying α-Amylase Evaluated from the Rate Parameters of Linear Substrates. *S. Iwasa, H. Aoshima, K. Hiromi, and H. Hatano* 969

Action of Trypsin on Synthetic Substrates. IV. Hydrolyses of Synthetic Insulin Fragments by Trypsin. *N. Nishino, N. Mitsuyasu, and N. Izumiya* 979

Regulation of 3-Deoxy-D-*arabino*-heptulosonate-7-phosphate Synthetase in *Brevibacterium flavum*. *I. Shiio, S. Sugimoto, and R. Miyajima* 987

Studies on Nitrite Reductase from Spinach Leaves. I. Further Purification and Some Properties. *J. Shimizu and G. Tamura* 999

Induction of δ-Aminolevulinate Synthetase in Organ Culture of Chick Embryo Liver by Allylisopropylacetamide and 3, 5-Dicarbethoxy-1, 4-dihydrocollidine. *Y. Tomita, A. Ohashi, and G. Kikuchi* 1007

Isolation of Nuclei from a Tetraploid Strain of *Saccharomyces cerevisiae*. *K. Doi and A. Doi* 1017

Adenylate Kinase from *Pseudomonas denitrificans*. I. Purification and Antiserum Inhibition. *H. Terai* 1027

Collagen Fibrillogenesis *in Vitro*. The Functional Role of Non-ionic Materials in Collagen Fibril Formation. *M. Honya* 1037

Studies on Polypeptide Elongation Factor 2 from Pig Liver. I. Purification and Properties. *K. Mizumoto, K. Iwasaki, M. Tanaka, and Y. Kaziro* 1047

PAGE

Studies on Polypeptide Elongation Factor 2 from Pig Liver. II. Molecular Weight and Amino Acid Composition. *K. Mizumoto, K. Iwasaki, Y. Kaziro, C. Nojiri, and Y. Yamada* 1057

Carboxypeptidase in Commercial Bromelain Powder. Partial Purification and Some Properties of Pineapple Carboxypeptidase. *E. Doi, C. Ohtsuru, and T. Matoba* 1063

Studies on Sterol-ester Hydrolase in Rat Liver Homogenates. *T. Sakamoto, H. Okuda, and S. Fujii* 1073

The Polypeptide Compositions of Bovine Cytochrome Oxidase and Its "Proteinase-treated" Derivative. *T. Yamamoto and Y. Orii* 1081

Isolation of Na^+, K^+-ATPase-associated Plasma Membrane of Pig Thyroid Cells. *Y. Nagai and T. Hosoya* 1091

Sedimentation Behavior of F-Actin of Various Types. *M. Kikuchi, K. Maruyama, and H. Noda* 1103

Mechanism of the Reversible Glycine Cleavage Reaction in *Arthrobacter globiformis*. I. Purification and Function of Protein Components Required for the Reaction. *H. Kochi and G. Kikuchi* 1113

Mechanism of Adenosine Triphosphate-dependent Ca^{2+} Uptake of Brain Microsomes. *K. Nakamura and K. Konishi* 1129

The Nucleases from *Acrocylindrium* sp. IV. Purification and Properties of Exonuclease. *I. Suhara* 1135

Polymerization of *Salmonella* Flagellin in Water and Deuterium Oxide Media. *Y. Uratani* 1143

A Spin-label Study of the Photosynthetic Bacterium, *Rhodospirillum rubrum*. Reduction and Regeneration of Nitroxide Spin-labels. *K. Maruyama and S. Ohnishi* 1153

SHORT COMMUNICATIONS

Effects of Stearic Spin-labels on the Photochemical Activities of Chromatophores from *Rhodospirillum rubrum*. *K. Maruyama and S. Ohnishi* 1165

Nucleotide Sequence of the Anticodon Region of *Torulopsis* Phenylalanine Transfer RNA. *S. Takemura, H. Kasai, and M. Goto* 1169

A Modified Lithium Buffer System for Analysis of Acidic and Neutral Amino Acids in Physiological Fluids. *T. Sato and T. Iijima* 1173

An Improved Mutarotase Assay Using β-D-Glucose Oxidase and an Oxygen Electrode. *I. Miwa and J. Okuda* 1177

Temperature Jump Relaxation Studies of Oxygen Binding to Isolated Chains of Hemoglobin. *T. Nakamura, Y. Sugita, and Y. Yoneyama* 1181

PRELIMINARY NOTES

Morphology of Myosin Molecules from Developing Chick Embryo. *T. Obinata and K. Takahashi* 1183

Partial Purification and Reconstitution of the Heme Oxygenase System from Pig Spleen Microsomes. *T. Yoshida, S. Takahashi, and G. Kikuchi* 1187

Synthesis of Cardiac Myosin by a Polyribosome Fraction from Chick Embryonic Skeletal Muscle. *T. Masaki and T. Kinoshita* 1193

Determination of p*Ka*'s of Individual Histidine Residues in Pancreatic Ribonuclease by Hydrogen-Tritium Exchange. *M. Ohe, H. Matsuo, F. Sakiyama, and K. Narita* 1197

No. 6, June, 1974

Studies on the Microsomal Electron-transport System of Anaerobically Grown Yeast. I. Intracellular Localization and Characterization. *Y. Yoshida, H. Kumaoka, and R. Sato* 1201

PAGE

Studies on the Microsomal Electron-transport System of Anaerobically Grown Yeast. II. Purification and Characterization of Cytochrome b_5. *Y. Yoshida, H. Kumaoka, and R. Sato* 1211

Evidence for the Identity of O-Acetylserine Sulfhydrylase with O-Acetylhomoserine Sulfhydrylase in Yeast. *S. Yamagata, K. Takeshima, and N. Naiki* 1221

The Chain Compositions of Several Invertebrate Collagens. *S. Kimura and F. Matsuura* 1231

Purification of Arylsulfatase A from Boar Testis and Its Activities toward Seminolipid and Sulfatide. *K. Yamato, S. Handa, and T. Yamakawa* 1241

Studies on Luciferase from *Photobacterium phosphoreum*. VI. Stoichiometry and Mode of Binding of $FMNH_2$ and O_2 to Stripped Luciferase. *T. Watanabe, G. Tomita, and T. Nakamura* 1249

Purification and Some Properties of Formate Dehydrogenase. *T. Ohyama and I. Yamazaki* 1257

Cytochrome *c*-552 and Cytochrome *c*-554 Derived from *Nitrosomonas europaea*. Purification, Properties, and Their Function in Hydroxylamine Oxidation. *T. Yamanaka and M. Shinra* 1265

Thiols of Myosin. II. Chemical Modification of Sulfhydryl Groups of Myosin A Adenosine Triphosphatase with Diazobenzenesulfonic Acid. *I. Kabasawa, K. Murayama, M. Kimura, and T. Sekine* 1275

Enzymic Degradation Products of ω-Heparin (Whale Heparin). *N. Ototani, K. Nakamura, and Z. Yosizawa* 1283

Pyrophosphatidic Acid. A New Phospholipid from *Cryptococcus neoformans*. *T. Itoh and H. Kaneko* 1291

Radioimmunoassay for Phenobarbital. *H. Satoh, Y. Kuroiwa, A. Hamada, and T. Uematsu* 1301

Fatty Chains of Acyl, Alkenyl, and Alkyl Phosphoglycerides of Rabbit Sarcoplasmic Reticulum. The Metabolic Relationship Considered on the Basis of Structural Analyses. *K. Waku, H. Ito, T. Bito, and Y. Nakazawa* 1307

Cation-binding Sites of Brain Microsomes. *D. Satomi* 1313

Effect of Glucose and Adenosine 3′,5′-Cyclic Monophosphate on the Early Development of *Dictyostelium discoideum*. *K.O. Yanagisawa, Y. Tanaka, and K. Yanagisawa* 1321

Studies on Lipolysis in Lipid Micelles Isolated from Adipose Tissue. *Y. Saito, H. Okuda, and S. Fujii* 1327

Bromocresol Purple as a Probe for Structural Features of Fragmented Sarcoplasmic Reticulum. *Y. Nakamaru and Y. Sugii* 1331

Nucleoside Catabolism in *Streptococcus hemolyticus*. *A. Taketo and Y. Taketo* 1341

Phosphorylation of Deoxyribonucleosides and DNA Synthesis in Early Cleaving Embryos of the Sea Urchin. *N. Suzuki and Y. Mano* 1349

Studies on ESR Spectra of Chromatophores from *Rhodospirillum rubrum*. *T. Higuti, T. Shiga, T. Kakuno, and T. Horio* 1363

SHORT COMMUNICATIONS

Synthesis of Catalase in Liver Slices from Aminotriazole-pretreated Rats. *A. Nakamura and S. Minakami* 1373

Polymerization of Papain by the Reaction of Its Tyrosine Residues with Tetranitromethane. *S. Tsukamoto and M. Ohno* 1377

The Inactivation of Ribonuclease from Seminal Vesicles by Photooxidation and Carbethoxylation. *M. Irie* 1381

Effect of Ethyl Chlorophenoxyisobutyrate (CPIB) on Plasma Lipoprotein Lipase Activity. *H. Okuda and S. Fujii* 1385

Digestibility of the Active Fragment of Potato Proteinase Inhibitor IIa by Bovine Chymotrypsin and a Bacterial Proteinase. *T. Iwasaki, I. Iguchi, T. Kiyohara, and M. Yoshikawa* 1387

Inhibition of Chicken Erythrocyte AMP Deaminase by Blue Dextran 2000. *M. Yoshino, Y. Kawamura, and N. Ogasawara* 1391
